Data and Workforce Management Analyst with 4 years of experience optimizing operations for global accounts (eBay, Lending USA, DoorDash, United Healthcare, and Just Energy) through workflow automation. Civil Engineering graduate with an honors thesis focused on data automation. Specialized in Python, Power BI, Generative AI, Excel, and data management, with a strong focus on transforming complex databases into strategic solutions for operational efficiency.

PROFESSIONAL EXPERIENCE

Foundever

Real Time Analyst | Workforce Analyst

Barranquilla, Colombia

Junio 2022 – Present

- **Report Automation:** Implemented automation tools for periodic report generation and updates, reducing preparation time by over 50% and improving accuracy in strategic decision-making.
- **Real-Time Data Analysis:** Developed complex data models in Power BI and Excel, formulating custom DAX measures to ensure full traceability and precision in financial and operational reporting.
- **Resource Management:** Led staff planning and allocation based on demand forecasting and historical behavior, achieving an efficient balance between service coverage and staffing costs.
- **Continuous Improvement Strategies:** Introduced best practices for advanced Microsoft Excel and Power BI data handling, enhancing data analysis quality and operational workflow efficiency.
- **Strategic Leadership:** Managed real-time operations for high-volume campaigns, including eBay, Lending USA, DoorDash, United Healthcare, and Just Energy; coordinated a headcount of over 300 agents and optimized the balance between Service Level Agreements (SLAs) and operational costs.

EDUCATION

UNIVERSIDAD DEL NORTE

B.S. in Civil Engineering

Barranquilla, Colombia

January 2020 – June 2021

UNIVERSIDAD DE LA COSTA (CUC)

B.S. in Civil Engineering

Barranquilla, Colombia

August 2021 – December 2025

- Cumulative GPA: 4.34 / 5.00 (Last semester GPA: 4.74 / 5.00).
- Academic Tutor / Monitor.
- Honors Thesis: Intelligent automation for the visual management of IDEAM hydrometeorological data using Python and Power BI.
- Top-tier score recognition on national Saber Pro standardized examination.
- National representative at RedCOLSI 2025: Achieved a perfect score (100/100) on the research project presentation.

ADDITIONAL SKILLS

- **Technical Languages & Tools:** Python, DAX, Advanced Excel (VBA, Power Query), Access, Relational Data Modeling.
- **Artificial Intelligence & Automation:** Prompt Engineering, LLM Workflow Integration, Generative AI for data analysis and code generation.
-

- Automation & Reporting: Interactive dashboard development and report automation to drive strategic decision-making.
- Process Improvement: Implementation of Lean Six Sigma methodologies and Agile practices to optimize resources and operational flows.
- Core Methodologies: Workforce Management (WFM), Lean Six Sigma, Time Management.
- Strategic Leadership: Real-time management of accounts with 300+ agents, team coordination, and serving as Senior Analyst to guarantee operational target achievements.
- Soft Skills: Analytical problem solving, time management, and effective corporate communication.
- Languages: English (C1 – Advanced), Spanish (Native).
