*With over 2 years of experience in the BPO sector as a Real Time Analyst at Foundever, I led the operational planning of the UnitedHealthcare account, achieving improvements in service efficiency and strategic decision-making. As a Civil Engineering student, I participated in applied research projects, such as the analysis of seismograms in collaboration with the Universidad Veracruzana, contributing to the development of the sector. Passionate about data analytics, I hold advanced certifications in Microsoft Excel and Power BI, key skills for implementing innovative solutions in the industry.*

## PROFESSIONAL EXPERIENCE

### Foundever

**Barranquilla, Colombia**

Real Time Analyst | Workforce Analyst

*June 2022 – Present*

- **Report Automation:** Implemented automation tools for the generation and updating of periodic reports, reducing preparation time by more than 50% and improving decision-making accuracy.
- **Real-Time Data Analysis:** Developed dynamic dashboards in Excel for visualizing critical metrics, facilitating early identification of deviations and the implementation of corrective actions.
- **Resource Management:** Led the planning and allocation of personnel based on demand projections and historical behavior, achieving an efficient balance between coverage and costs.
- **Continuous Improvement Strategies:** Introduced best practices in the use of tools like Microsoft Excel and Power BI, enhancing the quality of data analysis and operational workflow efficiency.
- **Strategic Leadership:** Supervised an account with over 300 employees, managing the operational coordination of a work team and exercising leadership as the senior of the area to ensure the fulfillment of strategic and operational objectives.

## EDUCATION

### UNIVERSIDAD DEL NORTE

Civil Engineering | Highway Engineering

**Barranquilla, Colombia**

*January 2020 – June 2021*

### UNIVERSIDAD DE LA COSTA (CUC)

Civil Engineering | Highway Engineering

**Barranquilla, Colombia**

*August 2021 – Present*

## ADDITIONAL SKILLS

- **Operational Management and Real-Time Analysis:** Optimization of key metrics using tools such as Power BI and advanced Excel.
- **Automation and Reporting:** Development of interactive dashboards and automation of reports to enhance strategic decision-making.
- **Process Improvement:** Implementation of Lean Six Sigma methodologies and agile practices to optimize resources and operational workflows.
- **Soft Skills:** Problem-solving, time management, and effective communication in bilingual environments (Spanish and English C1).
- **Strategic Leadership:** Management of an account with over 300 people and coordination of a work team, leading as the senior of the group to ensure the achievement of operational objectives.
